TEKA makes its television debut on Extreme Makeover Home Edition

Two Teka Arcade louvers and a Beacon Stem mount greet the Riojas family when they drive up to their new home.

B-K Lighting and TEKA Illumination were recently featured on ABC's Emmy-winning reality home improvement program, "Extreme Makeover: Home Edition" which aired March 8, 2009 on the ABC Television Network. The popular television show taped an episode in Fresno, California featuring the Riojas family from January 8 - 15, 2009. As part of the 'make-over', Becky Carlson, Marketing Manager contacted local designers to take part in this massive project.

"It's so wonderful to be part of a community willing to give so much to a family in need of help by taking on the task of building a home in just seven days," said Douglas W. Hagen, President/CEO of B-K Lighting and TEKA Illumination. "To know B-K Lighting and TEKA Illumination are part of this endeavor is something which gives us great pride."

B-K and Teka were ready and equipped in a matter of days to supply our finest fixtures to adorn the 3,600 square foot Modern Mediterranean home. President and CEO Doug Hagen took a personal interest by designing the entire lighting plan and overseeing the installation. From Customer Service to Assembly everyone was willing to help out with a smile in record-breaking time.

"Extreme Makeover: Home Edition" is produced by Lock and Key Productions. The show airs Sundays at 8/7c on the ABC Television Network. **T**
